

## **Trading/Quant Assistant - Commodities Hedge Fund - London (6 - 12 months)**

Duet Group is a global alternative asset manager. Since its inception, the Duet Group has developed an established portfolio of products in areas of growing importance within the investing community, notably within the Emerging Markets. We are currently looking for an intern within our Commodities Fund starting May 2016 in our London office.

The ideal candidate will have the following skills:

- a mathematical education with a bias towards statistics/probabilities
- previous experience in the finance industry working with Front Office is a plus but not mandatory
- interest in vanilla derivatives
- familiarity and interest in data science techniques (machine learning/pattern recognition)
- familiarity with an oriented object language (VBA and/or MATLAB is a plus)
- strong analytical skills
- the right to work in the UK

During your time with the firm, you will:

- Design new trading tools which will be used by the portfolio managers.
- Maintain and improve existing tools.
- Monitor PMs activity (PnL, Positions, etc.)
- Participate in researching trading ideas for the PMs (Statistical research, backtests, etc)

The role would be ideally suited to a student on their gap year, but other candidates will also be considered.

Required duration: 6 to 12 months

If this role interests you, please send an email to [PBey-Rozet@duetgroup.net](mailto:PBey-Rozet@duetgroup.net) with your resume and cover letter.
