Societe Generale Corporate & Investment Banking's success is founded on the skills and talents of our people. As part of one of the world's leading financial services groups, we have ambitious international activities with a broad range of graduate and internship opportunities across the world.

- The graduate programme lasts two years starting with a global training programme. Once this is completed you will have all the tools and 'know how' to hit the ground running as you join your specific team. You should expect to be challenged as well as experience a very steep learning curve. You will receive support and ongoing development and networking opportunities once you are in your team, and this will take a variety of different forms, from on the job training to cross-business project as well as a mentoring scheme.
- Our internships and part time opportunities will enable you to gain an invaluable insight into SG CIB whilst still at university. You will find opportunities with us that match your aspirations and challenge you in a very dynamic environment. If you want to take part in an excellent experience that will challenge you professionally and put your business spirit to the test then explore the numerous opportunities that we have available.

If you have an analytical mind, excellent communication skills, an international outlook and can make your influence felt throughout the team, you may be just the candidate we are looking for.

- Graduate or undergraduate from a top university, business school or engineering school
- An excellent academic record
- Fluent in English and at least one other language.
- Fluency in a third language would be a bonus

Are you ready for an exciting international challenge in a global organisation?
